

Greene County Habitat in the News!

Dear Greene County Habitat Supporters,

This past week Greene County Habitat's Home Repair Program was in the news! We are so excited to share that we completed our first Repair Project of 2021 for Quinton Croxton, a disabled veteran whose home has been in his family for three generations. We are so grateful to all of the Habitat volunteers and supporters who made this project possible.

Click [here](#) to watch the CBS19 segment featuring Mr. Croxton.

Home Repair Application Period is Open!

The Habitat for Humanity Greene County Home Repair Application period is LIVE. Please share the application broadly and help us spread the word about this exciting community resource! Habitat Greene County has

committed to completing 12 Repair Projects next year and we are looking for eligible families with whom to partner.

Click [here](#) to review an overview of the program and download the application.
