

## Greene County Habitat Happenings

Dear Greene County Habitat Supporters,

We hope this message finds you well and eager to get back out to support your local Habitat for Humanity! Although the COVID-19 pandemic limited the scope of our activities, a small group of volunteers have **successfully built or repaired 6 ramps, decks, and porches since June 2020!**

**Looking ahead, we are excited to share that we have a lot planned and WE NEED YOUR SUPPORT!**

### Homeownership Program Updates

In January we selected our next Greene County Habitat homeowner family and are actively looking for property on which to build their home. Once the property is selected, we will have a lot of volunteer home building opportunities. If anyone has a lead on affordable property in Greene County please email Regional Housing Director, Caitlin Riopel, at [criopel@cvillehabitat.org](mailto:criopel@cvillehabitat.org).

### Home Repair Program Updates

Our goal is to complete 12 critical home repair projects in the next fiscal year beginning July 2021. Click [here](#) to access our Home Repair application. For questions about the application process, please contact [Bruce Seger](#).

### Volunteer Updates

**This Saturday (4/16) and Sunday (4/17) the Greene County Habitat team will be executing a porch repair project on Amicus Road. If you are interested in volunteering this weekend, please email [Bruce Seger](#).**

We are excited to grow our base of volunteer and key partners this year. Please help us by completing this [brief 2 minute survey](#). If you know an individual or business who may be interested in volunteering, please email Volunteer Program Manager, Amy Allamong at [volunteer@cvillehabitat.org](mailto:volunteer@cvillehabitat.org).

If you want to volunteer stay tuned to our website for opportunities for individuals, church groups, civic clubs, and business teams to help make homeownership possible for some of your neighbors.

We look forward to hearing from you,

The Greene County Habitat Operating Committee
